TREND ILLUSTRATION

TREND ILLUSTRATION

Whether fashion, animals, objects or buildings - the most diverse motifs are artistically captured in illustrations. Our ABT PRO is most suitable for dynamic and colorful illustrations. The ink is well controllable and allows particularly precise drawing. The alcohol-based ink provides a strong, streak-free coverage by repeated application of paint. By layering the ink, you can also create effects, depth and shadows and intensify colors.

The IROJITEN artist's colored pencils impress with their outstanding quality and elegant design. They are made of high-quality wood and finished with elegant varnish. Their soft, wax-based leads create a rich, creamy texture.

The MONO graph mechanical pencil has an innovative "shaking mechanism" for extending the lead and an elegant body. It is used for sketches and pencil drawings. Its fixed 4 mm tip enables precise drawing and less lead breakage.

In addition to classic watercolor paints whereby the dyes are first dissolved with water, similar to watercolors, there are also watercolor wood pencils and felt-tip markers such as the ABT Dual Brush Pen that can be used for watercolor painting. The latter has the advantage that it is not limited to one watercolor technique, but can be used in a number of ways depending on the project. Water-based felt-tip markers are particularly suitable for beginners, because there is a range of other applications you can try so you are not limited to watercoloring.

Are you ready for manga?  
Well then: Totemo subarashī, yo!  
(Japanese for 'super, great, amazing!')

Mangas are comics that are mostly produced in black and white and originate from Japan. To draw them, a pencil with a soft lead, such as the MONO 100 with a hardness of 3B to 6B, is ideal.

No worries if you are hooked on color: There is the ABT PRO series for even, streak-free coloring. The ABT PRO is an alcohol-based marker that we developed together with pros for professional use. With its two tips – and over 100 colors – you can express your creativity perfectly.

TREND MANGA

To give your figures more volume, shadow and plasticity, you need a pen that is suitable for painting and coloring flat surfaces, such as the ABT Dual Brush Pen. In addition to the wide brush that you can use to paint the whole surface, you'll find a fine and firm tip on the other side, which is great for details and edges.

If you work with brush pens, very smooth paper with high opacity, such as the Tombow Bristol Paper, is the best.

Bullet Journaling, or Bujo for short, has been a creative trend for a few years now and is hard to ignore. No wonder: it's great fun. A Bullet Journal is a self-designed calendar diary with thematically structured entries – the bullets.

You can use lots of techniques and effects in your Bullet Journal: The MONO edge highlighters with their innovative chisel tip are particularly suitable for color coding, while Twin Tones with their two tips of different widths allow you to draw in wonderful colors suiting your mood.

TREND **HANDICRAFT**

Handicrafts are a creative favorite that never go out of style. That is because it is fun to send home-made cards, to create your own invitations and decorations for a celebration or to present handmade items for Christmas. The Tombow adhesive range includes glue rollers, liquid glue and glue sticks for

various materials and applications. Here, hobbyists will find exactly the right product to turn their ideas into great and, above all, long-lasting results.
